CONGRESS PRESENTATION

ECTP 2026

This European Conference on Thermophysical Properties is the 23rd edition of a series of very successful conferences on Thermophysical Properties held in Europe since 1968.

The history of the first 50 years of ECTP is presented in a paper by M.J. Assael, F. Righini, and K.D. Maglic, "European Conference on Thermophysical Properties: The First 50 Years (1968 – 2018)", Int J Thermophys 39, 25 (2018).

The 23rd ECTP is organized by the Reactions and Chemical Engineering Laboratory (LRGP), located in Nancy (France), and will take place in the Castle Serge Kampf Les Fontaines in Gouvieux (France).

Conference goal

The objective of ECTP is to provide a forum for academic and industrial researchers to meet and exchange valuable experiences in the field of thermophysical properties for a wide variety of systems covering fluids and solids. The specific properties, materials and applications of interest for the conference are mentioned in the following page.

This conference will include plenary and invited lectures, oral presentations, poster sessions and discussion sessions on specialized topics. The ECTP Award for Lifetime Achievements, as well as the NETZSCH Young Scientist Award will be delivered during this event.

TOPICS OF THE CONFERENCE

Properties

Phase Equilibrium, Calorimetric and Volumetric Properties, Enthalpy and Entropy, Speed of Sound, Interfacial Properties Including Solid-Solid and Wettability, Thermal Conductivity, Diffusivity, Electrical Conductivity, Viscosity, non-Newtonian Properties, Mass-Diffusion and Thermo-Diffusion, Optical and Radiative Properties Including Emissivity, Reflectivity and Absorptivity, Corrosivity, Thermal and Chemical Stability, etc.

Materials

Near-Critical and Supercritical Fluids, Aqueous Systems, Hydrogen and Hydrogen-based Mixtures, Carbon Dioxide-based Mixtures, Green Solvents, Ionic Liquids, Petroleum Fluids, Molten Salts, Metals and Alloys, Working Fluids for Thermodynamic Cycles, Ceramics, Glasses, Composites, Multi-Functional Materials, Superconductors, Insulation Materials, Porous Materials, Granular and Thin-Film Materials, Foams, Gels, Emulsions, Soft Materials, Nanomaterials, Polymers, Biomaterials, etc.

Applications of particular interest

Standard Data and Standard Substances, Distillation, Hydrogen Liquefaction and Storage, Cryogenics, Carbon Capture, Utilization and Storage, Innovative Thermodynamic Cycles for Heat Pumps and Power Plants, Green Chemistry, Polymerization, Casting, Sintering, Plasma Spraying, Refrigerant Techniques, Thermoelectric Cooling, Insulation Structures in Civil Engineering, etc.

CONFERENCE VENUE

THE SERGE KAMPF LES FONTAINES CAMPUS

- Located in Chantilly
- 300 rooms
- 60 meeting rooms
- 450-seat auditorium
- XIXth century Rothschild Château for convivial moments
- 52-hectare wooded park (a pond, a Normandy farm and 7 contemporary villas)

HIGHLIGHTS OF THE PLACE

Less than 35 minutes from Paris

Design and delivery of eco-responsible events

ISO 2121 certified ISO 2121 certified (international norm that certifies the sustainable management of the event, e.g. water and energy consumption, choice of suppliers, employee safety, etc.)

THE SERGE KAMPF LES FONTAINES CAMPUS

A SHOWCASE OF ELEGANCE AND INNOVATION

Nestled in the heart of a 52-hectare green park, the Serge Kampf Les Fontaines Campus is an exceptional place combining refinement and modernity. This historic former estate has been transformed into an internationally renowned conference center, offering a unique setting conducive to exchange and reflection.

With its majestic XIXth century château, light-filled spaces and state-of-the-art infrastructure, the campus is designed to inspire. The harmony between nature and architecture creates a serene atmosphere, ideal for hosting prestigious scientific events such as yours.

JUST A STONE'S THROW FROM THE CHÂTEAU DE CHANTILLY

The Château de Chantilly is just a few minutes from the Serge Kampf Les Fontaines Campus. A true treasure of French heritage, this castle embodies elegance and history, offering a fascinating glimpse into the world of the great princely families.

Surrounded by formal gardens designed by Le Nôtre and a romantic park punctuated by water mirrors, the château is an architectural masterpiece of beauty and harmony. Its sumptuous interiors house one of the finest collections of old paintings in France, rivaling the finest museums. The library and historical archives, meanwhile, bear witness to a rich cultural heritage.

The Château de Chantilly, with its grand stables, equestrian shows and idyllic setting, is an inexhaustible source of wonder. A cultural interlude not to be missed, just a stone's throw from campus!

Maximize the impact of the conference

Your donation directly contributes to:

- Funding scholarships and access for researchers
- Supporting the production of posters and abstract books
- Recognizing scientific excellence with awards and trophies

WHAT IS CORPORATE FUNDING?

Corporate funding is a financial support with no commercial counterpart provided to a project of general interest. It is fully aligned with a CSR approach and allows businesses and individuals to benefit from tax advantages while reinforcing their societal commitment.

To ensure a simple and transparent process, we rely on Fondation ID+, which is authorized to collect donations and issue tax receipts.

How to Proceed?

Donations under €3,000: simplified online subscription.

Donations over €3,000: personalized patronage agreement.
